100 % PLANT-BASED

OUR PRODUCT HIGHLIGHTS IN THE OAT RANGE

VEGAN

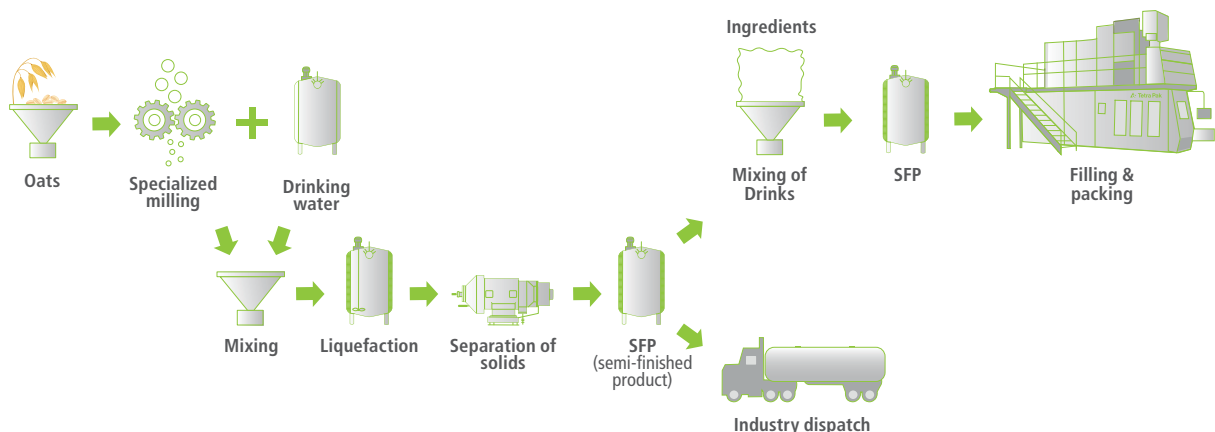

WE PRODUCE PREMIUM OAT DRINKS

We combine state of the art milling technology, advanced liquefaction processes, and cutting-edge filling technology to create high-quality future-ready oat drinks.

At our plant-based facility in Rehburg-Loccum, the oat base is blended, ultra-heat treated, and finally filled and packaged. This involves a new production process that ensures the particularly high quality of our products.

THE CREATION OF AN OAT DRINK

WE COMBINE EXPERTISE

AGRICULTURAL SOURCING

- ✓ High-quality oats from selected, long-standing contractual partners
- ✓ Since Q3 2025: company-owned, state-of-the-art oat mill in Rehburg-Loccum

PROCESSING & MILLING TECHNOLOGY

- ✓ Innovative oat mill for maximum control over every step of the process
- ✓ Patented manufacturing process and advanced enzymatic liquefaction technology
- ✓ Sustainable filling technology with a focus on conserving resources
- ✓ Specialized milling for optimal product properties

PREMIUM OAT PRODUCTS

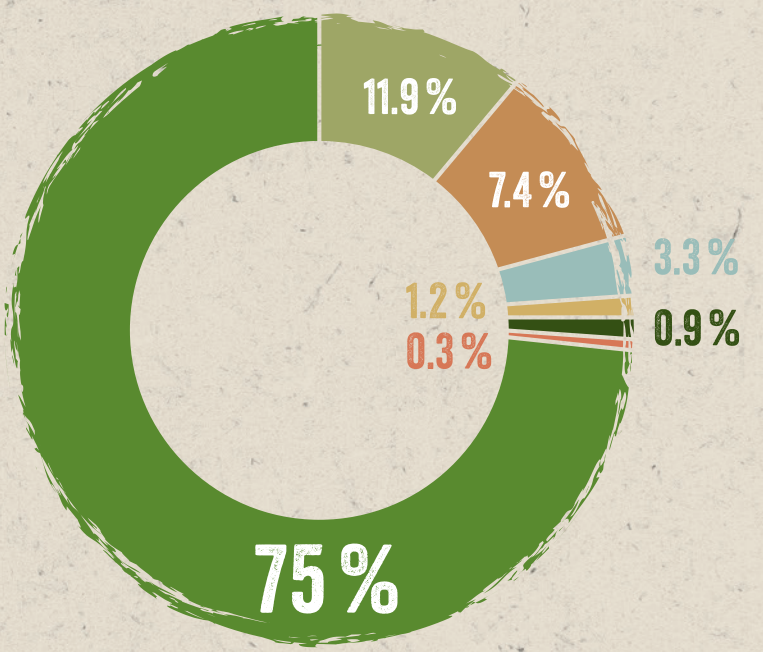

- ✓ Maximum quality
- ✓ Light colour
- ✓ Mild oat flavour
- ✓ Pleasant sweetness
- ✓ High functionality
- ✓ No sedimentation in drinks and cooking cream
- ✓ Product variety from drinks and desserts to cooking cream

We offer delightful high-quality oat products!

THE #1 MILK ALTERNATIVE: OATS

Happy with oats: oat-based products are becoming increasingly popular among consumers, both for their taste and for sustainability reasons. In addition, they contain **no lactose or milk protein** and are **lower in calories and fat** than most other plant-based drinks. As a result, oat products are the most popular milk alternative, a trend that is clearly reflected in the retail market:

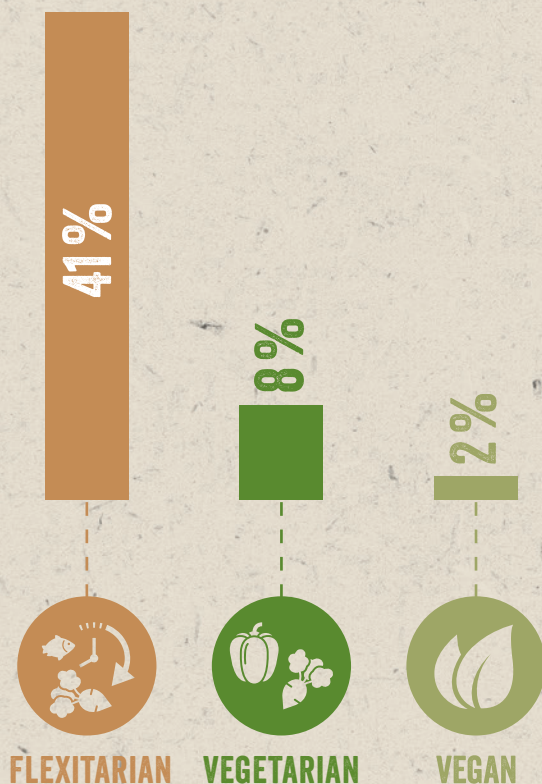

- Oat
- Almond
- Soy
- Coconut
- Rice
- Peas
- Cashew
- Other

More vegan options in restaurants, canteens, cafés & co.

The number of **plant-based food service establishments** in Germany has risen significantly in recent years. **And the trend is rising.** Additionally, a variety of **veggie options** entered the menus of regular restaurants, student services and communal catering. Many cafés now also offer at least one type of **plant-based milk** for coffee lovers.

More and more vegan, vegetarian and flexitarian consumers

According to the Federal Ministry of Food and Agriculture in Germany (BMEL), **8% of the German population was vegetarian and 2% vegan in 2024** – about twice as many as 2020!

In 2024, almost half of the German population (41%) considered themselves flexitarian – and consciously opted for less animal-based food.

Oat products are more popular than ever!
